

REMARKS

Applicants are in receipt of a Restriction Requirement mailed July 21, 2006, in which five allegedly distinct species of inventions were identified as follows:

Species A – Claims 1-28;

Species B – Claims 29-39;

Species C – Claims 40-47;

Species D – Claims 48-50; and

Species E – Claims 51-54.

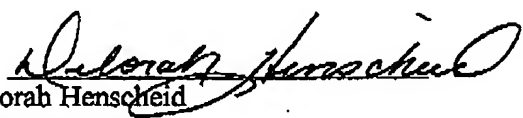

As a preliminary matter, in the Restriction Requirement the Examiner identified Species E as claims 48 - 50. As these claims were also identified as Species D in the Restriction Requirement, Applicants assume the Species E identification was in error and should refer to claims 51 - 54.

In response to the Restriction Requirement, Applicants, through their representatives and attorneys, hereby elect Species A (e.g., Claims 1-28) without traverse.

Should the Examiner have any questions or wish to further discuss this application, Applicants request that the Examiner contact the undersigned at (480) 385-5060.

Respectfully submitted,

Dated: August 4, 2006
